‘We face a global emergency’ over oceans: UN chief sounds the alarm at G7 Summit event

9 June 2018 | [Climate Change](#)

Unless there is a change of course, the amount of plastic waste in the world’s oceans will outweigh the fish that live in them, by 2050, said the United Nations Secretary-General on Saturday, declaring that the world now faces a “global emergency” over the oceans.

Mission

Inspiring the animal community to adopt
environmental & sustainable
solutions

1. Collect ocean plastic

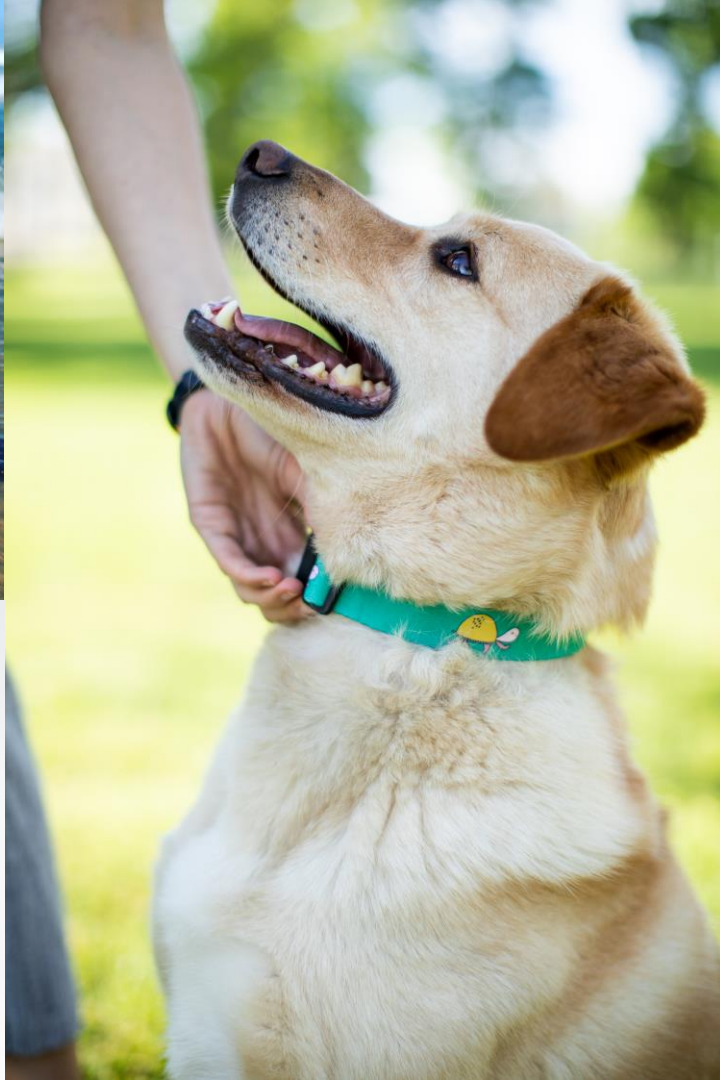

2. Recycle ocean plastic

From fishing net to
RPET

3. Innovative vet &
animal products
